Technical Service Note   May 7, 2009

Affects:

- **FPA-1000-UL Offline Configuration Tool**

1.0   Issue

In order to use the FPA-1000-UL Offline Configuration Tool, you must modify Internet Explorer 7's security settings.
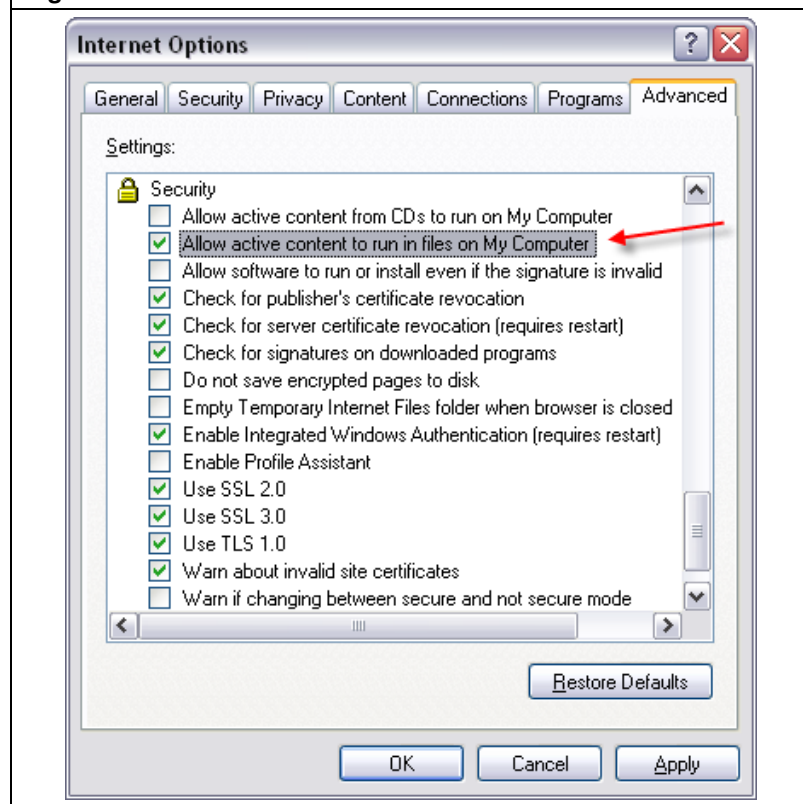

> When using the FPA-1000-UL Offline Configuration Tool, Bosch Security Systems, Inc. recommends a screen resolution of 1024x768 or higher.

2.0   Resolution

Perform the following procedure to modify Internet Explorer 7's security settings:

1. Open Internet Explorer 7.
2. Select **Tools → Internet Options**….
3. Select the **Advanced** tab.
4. Scroll to the **Security** settings.
5. Place a check mark in the **Allow active content to run in files on My Computer** option.

Figure 1:   Allow Active Content

6. Click **OK**.
7. Restart Internet Explorer 7.
