PanoVu Camera Firmware Version: V5.5.90
Release Note
# (2021-03-29)

| Firmware Basic Information	Firmware Version:	V5.5.90_210302
	SDK Version:	V6.1.6.40build210204
	4200	V3.4.2.1
	ONVIF	1912
	NVR	DS-9632NI-I8
	Player	VLC3.0.3，realplayer16.07.0，QuickTime7.6.8

Camera Features
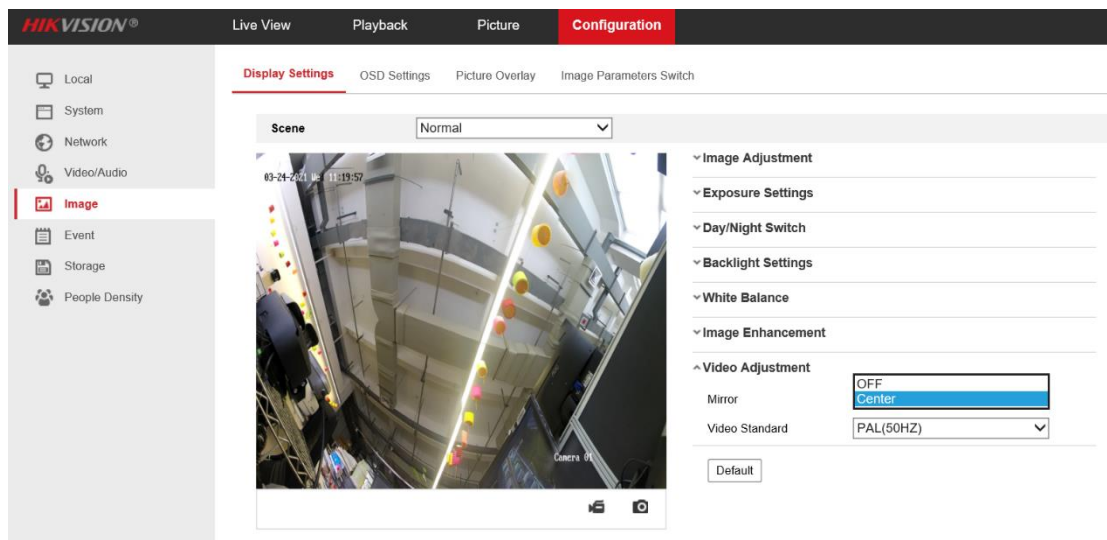

1. New Features

- 6984 model newly supports people density detection under panorama mode of 8 MP resolution (VCA resource switchable under panorama mode). This function takes effect after restart.

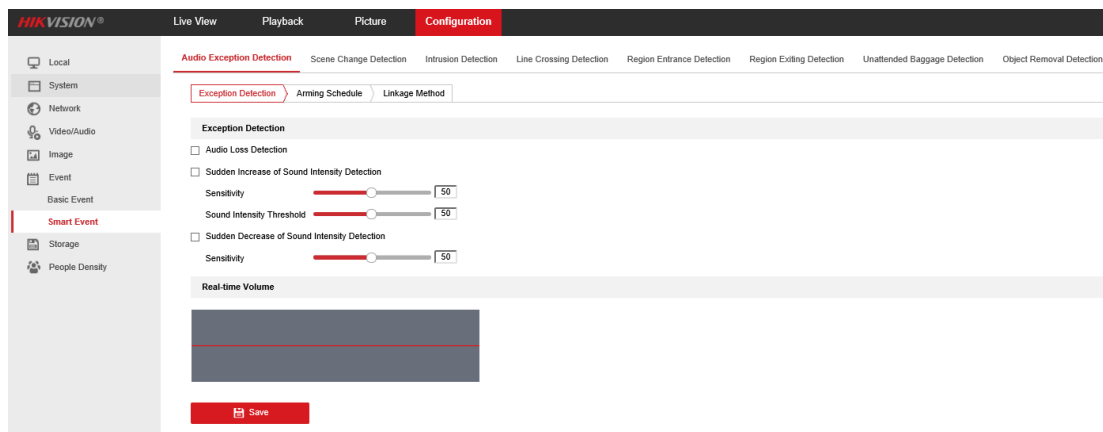

- 6984 model supports main stream and sub-stream under 8 MP resolution with people density VCA resource.

- Mirror function is supported by 6924/6944 model and 6984 model with 8 MP resolution and people density VCA resource.

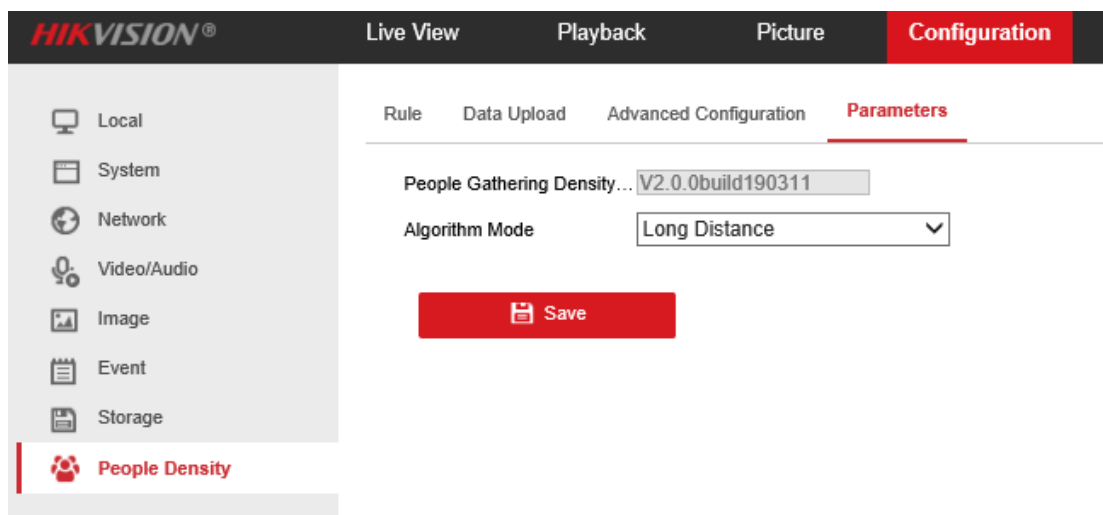

- Under panorama, 6924/6944 model support following smart events: Audio exception detection (sudden increase/decrease detection, audio loss detection), Scene change detection, Intrusion detection, Line crossing detection, Region entrance detection, Region exiting detection, Unattended baggage detection, Object removal detection.

2. Improved Features

- Algorithm mode is shown on the people density page.

- Rotation, mirroring and electronic image stabilization are no longer mutually exclusive. ROI, SVC, smoothing, and electronic image stabilization are no longer mutually exclusive, and no need to restart to take effect. (The newly added 8 MP people density mode for 6984 model supports smart encoding)

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after the Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action. For any questions and request for this firmware, please contact our local technical support team.

Remarks:

- Hikvision reserves the right to change, alter or withdraw the above notification without prior notice.
