

V5.8.0 Release Note (2023-11-12)

| | |
|---|--------------------------------------|
| Firmware Basic Information | Firmware Version: V5.8.0 build230519 |
|---|--------------------------------------|

Modified Features

- Fixed the issue about smart tracking function invalid for DE4A devices
- Fixed the issue about PTZ patrol state abnormal

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after the Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action.

For any questions and request for this firmware, please contact our local technical support team.

Remarks:

- Hikvision reserves the right to change, alter or withdraw the above notification without prior notice.
- Product design and specifications are subject to change without prior notice.
- The Hikvision firmware may contain errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.
- Hikvision is not liable for any typing or printing errors.
