| | Client version | V3.3.2.2 build20200728 |

Reason of Upgrade

Optimize product performance.

Modified functions

1. Fix the issue: the time zone information is not completely updated and some related functions are abnormal after modifying the time zone through the Web/ISAPI protocol:

- 1) After NTP is enabled, it will display the time of original time zone. –There will be a time deviation in the recording video.
- 2) Linked mail, it will display the time of original time zone.
- 3) There will be a time zone deviation in RTSP playback positioning time.
- 4) There will be a time zone deviation in the file name on the CD when backup to it.
