Network Video Recorder

Version: V4.22.005 build 191208

Release Note

(2019-12-8 Internal)

|		
Firmware **Basic** **Information**	Firmware Version:	V4.22.005 build 191208
	SDK Version:	V6.1.3.20_build20191118
	Play Library:	V7.3.3.61
	Web component:	V4.0.1 build191120
	IVMS-4200:	V2.6.25.2 build20190806
	OpenSDK Version:	V2.1.4 build 190809

Reason of Upgrade

Add new features and optimize product performance.

New features

### 1.【Support connect to up to 32MP camera】

1) Customer need to select the high-resolution mode before connecting the high-resolution camera. Currently only channel 1 is supported this function. This function only supports recording storage; doesn't support decoding preview, playback, and picture capture.

2) POE device doesn't support connect to high-resolution camera; in high-resolution mode, 32 channels device will be reduced to 8 channels.

3) Support alarm information that come with high-resolution camera, such as behavior analysis.

2.【Support 802.1x】

1）Some switches require 802.1x protocol authentication.

2）Obtain the corresponding supported protocols, user names, and passwords from the switch.

3）Only remote WEB support to configure this function.

Modified functions

【Stability Optimization】

Solve some known issues and enhance product stability.
