	SDK Version	V5.0 build 180718
	player	4.81mini
	Play Library (PlayCtrl.dll)	7.3.5.0
	Web version	V4.0.1 build 180623
	Web version	V2.6.5.12build20171123

Reason of Upgrade

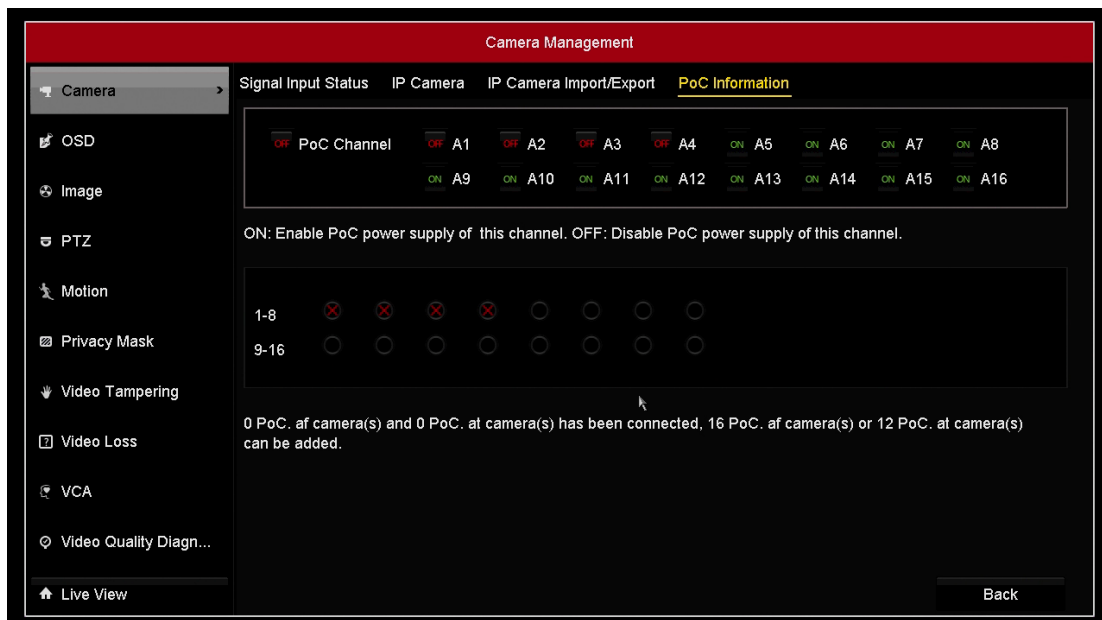

Release new K series DVR models: DS-7104HUHI-K1, DS-7108HUHI-K1.

For POC models, PoC power supply could be enabled or disabled.

For 71/72HQ and 71/72 HU/HT series, all analog channels could be disabled for more IP channels access.

Main Features

- i. For POC models, PoC power supply could be enabled or disabled. It's enabled as default. PoC camera can't be added to this channel when it's disabled.

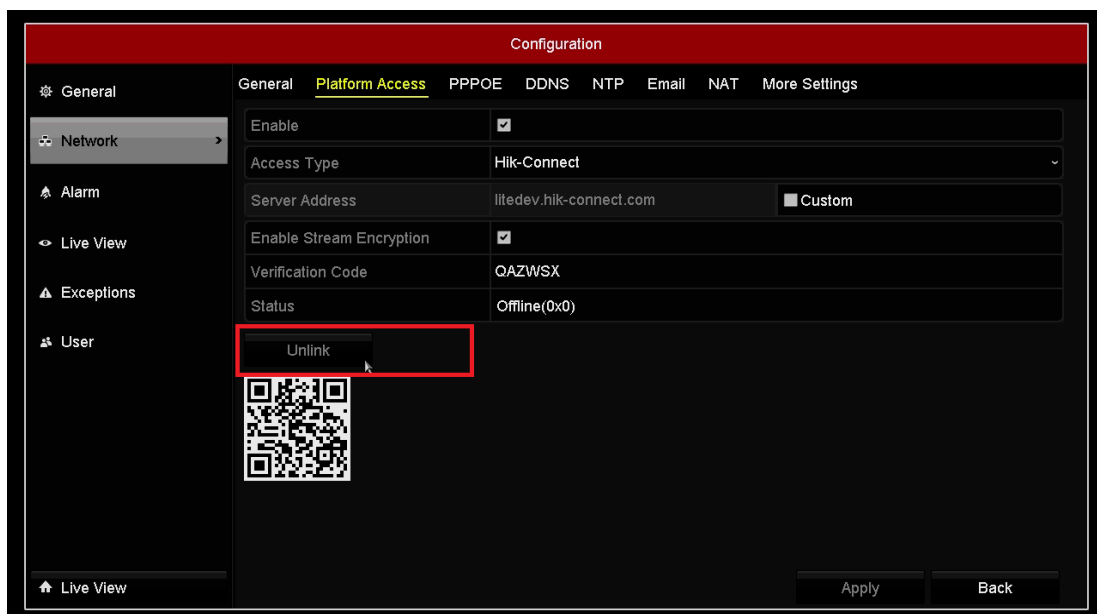

- ii. For 71/72HQ and 71/72 HU/HT series, all analog channels could be disabled for more IP channels access. It will work when enable Enhanced IP Mode except HT series (Configuration->General->More

settings->Enhanced IP Mode)

- 1) The number of IP channel which can be added to HU/HT is N as default (N represents the numebr of analog channel) ; if the analog channel is disabled, the number of IP channel will become N+N.
- 2) the number of IP channel which can be added to HQ is N/2 as default (N represents the numebr of analog channel) ; if the analog channel is disabled, the number of IP channel will become N/2+N.

Note: When enable Enhanced IP Mode ,the VCA of analog channel will be disabled and 2k/4k output will also be disabled.

- iii. HQH-K model supports CVI 4MP signal access.
- iv. Hik-connect unbounding hint is newly added.

- 1) When the device has not been linked, when you press the unlink button, it will show: The device is unlinked.
- 2) Click the Link button and enter the password input interface, it will show: The device will unbind with the account
- 3) While unbounding, it will show: Unbinding device...Please wait.
- 4) If unbounding is successful, it will show: bound success.
- 5) if unbounding is time out, it will show: bound out time.

Modified Functions

- i. Delete the video and player option when backup.
- ii. Hilook Hic-connect interface Modified:

For standard firmware:

access type is change to HiLookVision. Default address is: litedev.hilookview.com.

For neutral firmware :

access type is changed to Guarding Vision. Default addressis:litedev.guardingvision.com.
