HIKVISION

# K1A802 Series Terminal V1.2.0_build190513
Release Note (2019-05-23)

Device Model: DS-K1A802F/MF/EF	Firmware Version	ARM: ACS_1A_M0_EN_GM_V1.2.0_build190513
DS-K1A802F/MF/EF-B	iVMS-4200 Client Version	V3.1 or updated version

Note:

1. After upgrade ARM firmware, don't reboot device directly!

Choose restore all after upgrade. This is because new firmware's data structure is not compatible with old firmware. Rebooting directly will lead to devise crash. It is recommend to upload all the old data to client software (iVMS4200) before upgrade, and apply all data to devise again when upgrade finish.

2. DS-K1A802F/MF/EF-1 models are not compatible with this firmware.
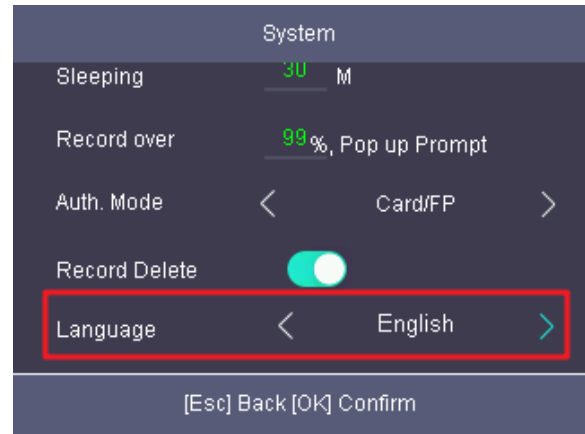

Reason of Upgrade

Add or modify functions, fix bugs, enhance products quality and meet customers' requirements.

New Features

1. Person information structure changes from "based on card" to "based on person ID";
2. Support a new authentication mode: card/fingerprint/password;
3. Support attendance status (check in/check out/break out/break in/overtime in/overtime out);
4. Basic settings will be saved automatically when you quit configuration menu. Some important configurations such as EHOME settings and restore device settings will still ask for confirmation before saving;
5. Support EHOME 4.0 and 5.0, can be configured in local interface or client software;
6. Multiple languages and voice prompts: English, Brazilian Portuguese, Spanish, French, Vietnamese, Italian, Arabic, Thai.

Local EHOME Setting

Multiple Languages
