<b>Product:</b>	DS-PWA Series AX PRO Wireless Security Control Panel			<b>Page:</b>	1 of 1

## Preparation

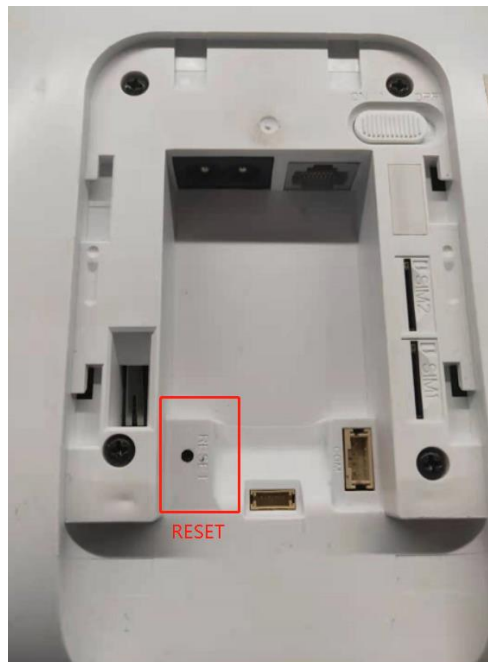

---

1. DS-PWA Series AX PRO Wireless Security Control Panel

## How to Rest AX PRO Panel by Reset Button

---

### 1. Find the Reset Button on AX PRO Panel

### 2. Hardware Reset Steps

- 1) Power On the Panel
- 2) When you hear the first voice (**control panel is ready**), long press the reset button until you hear the voice (**reset default**).

**Note:** The reset process needs to be operated when the Panel power is just turned on, and it is invalid when the panel works normal
