### (For article)

(\*) To communicate information down the supply chain according to article. 33 of REACH. OR

1. Notification to ECHA, if the quantities of SVHC in the produced/imported articles are above 1 ton in total per year per company.

2. Provide sufficient information to ensure safe use of the article and, as a minimum, include the name of the substance, to their customers and on request to consumers within 45 days of the receipt of this request.

3. According to the EU Court of Justice rules in 2015 on SVHCs in articles, individual components could be considered as "articles" in their own. The "articles" would subject to notification to ECHA (point 1 and 2 of the above) if SVHC is above 0.1% concentration by weight threshold.
