HIKVISION

First Choice for Security Professionals

IP Speaker

Version: V1.2.2 build240103
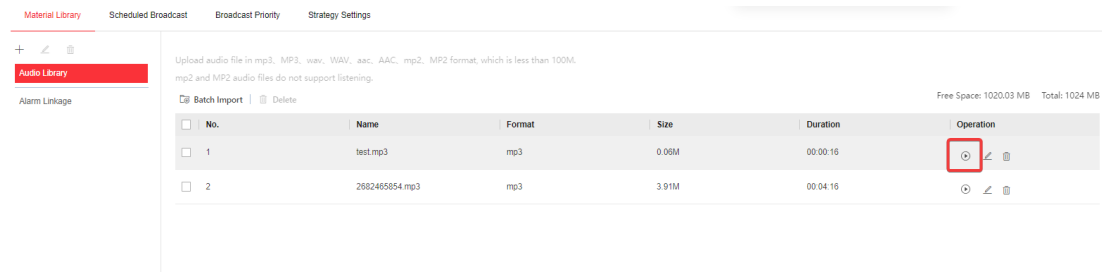

Release Note

Reason of Upgrade

Add new features, fix known issues and optimize product performances.
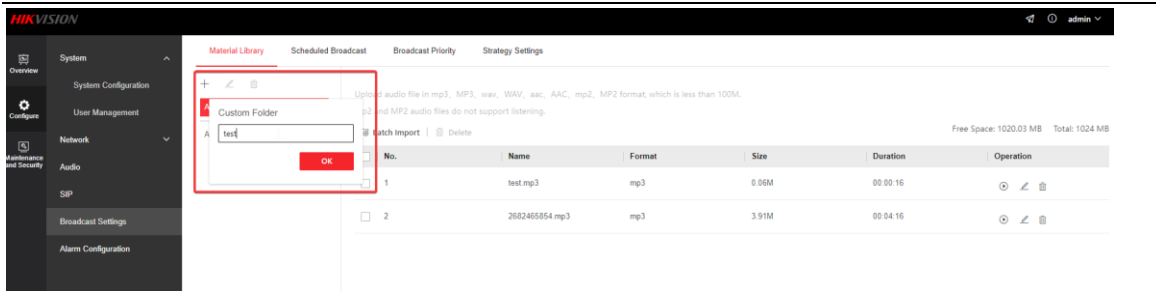

New Functions

【Support Playing Audio File through Web Material Library】

Support playing audio file through Web material library. Users can listen to the audio file at the Web side through material library.

【Support Adding Custom Folder in Material Library】

Support adding custom folder in material library to manage audio files.

【Support New Languages for Web Interface】

Support Web languages including German, Italian, Spanish, French, English, Russian, Japanese and Thai.
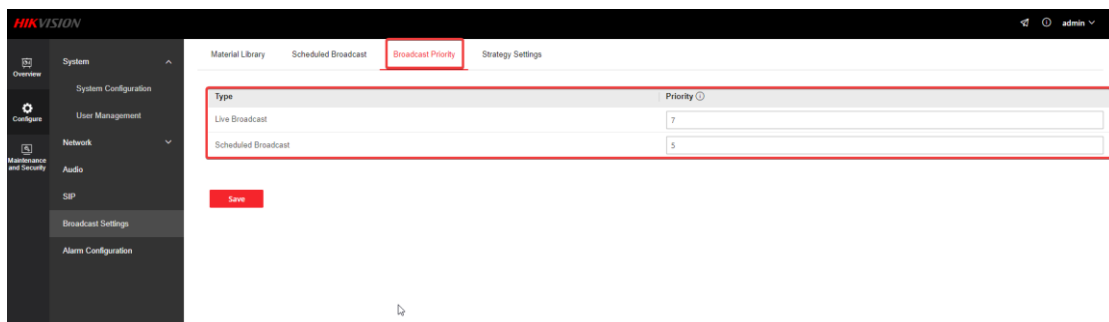

【Support New Languages for TTS】

1. Support TTS languages including English, Russian, Spanish, Japanese and Thai.
2. English TTS supports switching between male and female voices, and other languages only support female voice so far.

【Support New Audio Format】

AAC and MP2 audio formats are supported now.

【Support Configuring Priority of Live Broadcast and Scheduled Broadcast】

Support Configuring Priority of Live Broadcast and Scheduled Broadcast.

【Support Startup Prompt Tone】

Support playing 1s prompt tone when device starts up.

Modified Functions

【Bluetooth is Disabled by Default】

Bluetooth is disabled by default.

【Modify the Volume of Bluetooth Prompt Tone】

The volume of Bluetooth connect or disconnect tone is now changed according to the output volume of the device Settings, instead of default 100.

【Modify Default Name of Bluetooth】

Change the default Bluetooth name to Audio-Device SN. For example, if the device SN is AF1111111, the default Bluetooth name is Audio-AF1111111.
