## How to open the door with PIN Code in MinMoe Terminal

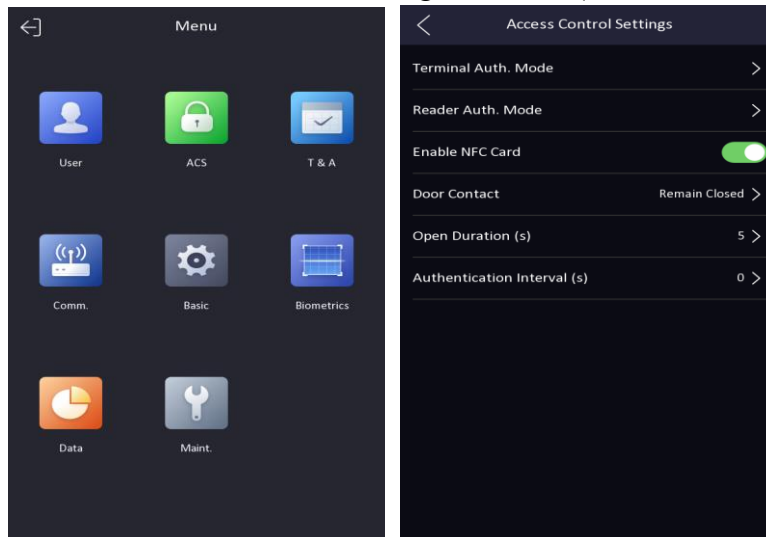

(2021-01-28)

### Preparation

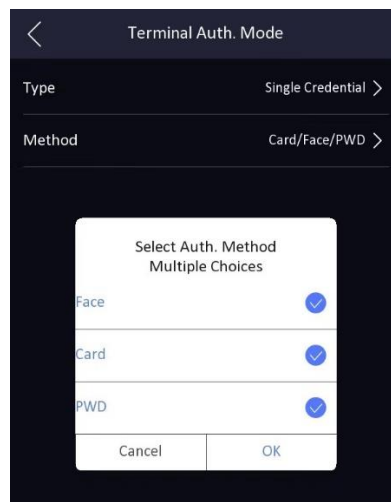

This document displays guidance on how to configure PIN Code in IVS4200 software and open door with it on MinMoe access control terminal.

#### 1. Enable opening the door with PIN Code on the device

- 1) Long press the screen of device and then slide left (or right) to enter the menu.
- 2) Enter the Access Control Settings interface (Menu → ACS)

- 3) Go on with the Terminal Auth. Mode and select Type (Single Credential) and Method (must tick PWD).
