How to configure Unattended Baggage Detection and Object Removal Detection of DF series PTZ Camera

Notes: Unattended Baggage Detection and Object Removal Detection are added to DF series PTZ Camera (only H3 and R7 platform support)

For Unattended Baggage Detection

Steps:

 Go to Configuration→Event→Smart Event→ Unattended Baggage Detection. Draw Area, set Threshold(s), Sensitivity, Arming Schedule and Linkage Method parameters. Enable the function and click

in the end.
