

How to configure intrusion and smart tracking function in smart speed dome

Step 1: Go to **Configuration> Smart Event> Intrusion Detection**, enable the **Intrusion detection**, and then draw an area for intrusion.

The screenshot displays the configuration interface for an IPDome camera. The top navigation bar includes 'Live View', 'Playback', 'Log', and 'Configuration' (highlighted with a red box). The user is logged in as 'admin'. The left sidebar shows a tree view with 'Smart Event' highlighted (red box). The main panel shows 'Intrusion Detection' selected among other detection options. A checkbox 'Enable Intrusion Detection' is checked (red box). Below it, 'Region 1' is selected. A video feed shows a yellow polygon drawn on the scene, labeled '#1#'. A 'Draw Area' button and 'Clear' button are visible. A 'Threshold' slider is set to 1. A 'Lock' button is also present.

Step 2: Configure the schedule and then enable **Smart tracking** in **Linkage Method**. Click **Save**.

Linkage Method

Normal Linkage	Other Linkage
<input type="checkbox"/> Notify Surveillance Center	Trigger Alarm Output <input type="checkbox"/> Select All
<input type="checkbox"/> Send Email	<input type="checkbox"/> A->1 <input type="checkbox"/> A->2
<input type="checkbox"/> Upload to FTP	
<input checked="" type="checkbox"/> Trigger Channel	
<input checked="" type="checkbox"/> Smart Tracking	

Step 3: Go to **Configuration > PTZ > Smart tracking**.

Control the PTZ function of speed dome and stay in a position for tracking, click the **Set zoom ratio**. This parameter would be the zoom ratio for smart tracking. Click **Save**.

The screenshot displays the configuration interface for PTZ Smart Tracking. At the top, there are tabs for 'Live View', 'Playback', 'Log', and 'Configuration' (highlighted with a red box). The user is logged in as 'admin' and can click 'Logout'. On the left, a navigation menu shows 'Local Configuration', 'Basic Configuration', and 'Advanced Configuration'. Under 'Advanced Configuration', 'PTZ' is selected and highlighted with a red box. The main content area has tabs for 'Basic', 'Limit', 'Initial Position', 'Park Action', 'Privacy Mask', 'Scheduled Tasks', 'Clear Config', and 'Smart Tracking' (highlighted with a red box). Below these tabs is a 'Prioritize PTZ' section containing a video feed of a speed dome camera labeled 'IPdome' and a control panel with various PTZ buttons and a zoom slider. Below the video feed, there is a checkbox for 'Enable Smart Tracking' (checked and highlighted with a red box), a 'Duration' field set to '300' seconds, and a 'Set Zoom Ratio' button (highlighted with a red box). A 'Save' button is located at the bottom right of the configuration area (highlighted with a red box).

Note: Please kindly note that only our latest 2DFxxxx series smart speed dome could support this function. You may check the detail models in followed list.
