

## 2nd Gen Villa Door Station

### V2.1.5 Build 200904 Release Note

Device Model	DS-KV6113-PE1 DS-KV6113-WPE1 DS-KV8113-WME1 DS-KV8213-WME1 DS-KV8413-WME1
Firmware Version	V2.1.5 Build 200904
iVMS-4200 Version	V3.3.1.8 build
Hik-Connect APP	4.9

#### New Function

1. The **single** button Villa door stations supports calling Hik-Connect app directly without an indoor station. Make sure the device has been activated and its network allow access to internet and then add it the App by scanning the QR code on the back of the device or use manual adding and type the devices serial number in the app and use the verification code on the back of the device. You can check the platform status on the device webpage.

The screenshot displays the Hik-Connect configuration page. The top navigation bar includes 'Live View', 'Organization Str...', and 'Configuration'. The left sidebar lists various settings categories: System, Network, Basic Settings, **Advanced Settings** (highlighted with a red box), Video/Audio, Image, Event, and Intercom. The main content area is titled 'Platform Access' and contains the following settings:

- Platform Access Mode: Hik-Connect (dropdown menu)
- Enable
- Server Address: litedev.hik-connect.com
- Register Status: Online
- Stream Encryption/Encry...: [masked]

Below the settings, there is a note: "6 to 12 letters (a to z, A to Z) or numbers (0 to 9), case sensitive. You". At the bottom, there is a red 'Save' button.

#### Known Issues

1. Sharing between accounts is not supported at the moment.
