New

1. This new version is based on the device model: KH6320-TE1/WTE1. And the basic functions are consistent with KH6320-TE1/WTE1.

2. This is a new model of CVBS Indoor station support to connect Four-wire doorbells（KB2411、KB2421）as a secondary confirmation door station. Support intercom, preview, and opening the door.

3. Support forwarding to Hik-Connect when receiving a four-wire doorbell call.
