Hikvision Europe B.V.

www.hikvision.com/europe

product.eu@hikvision.com

Purpose

Provide a guidance for contact list configuration

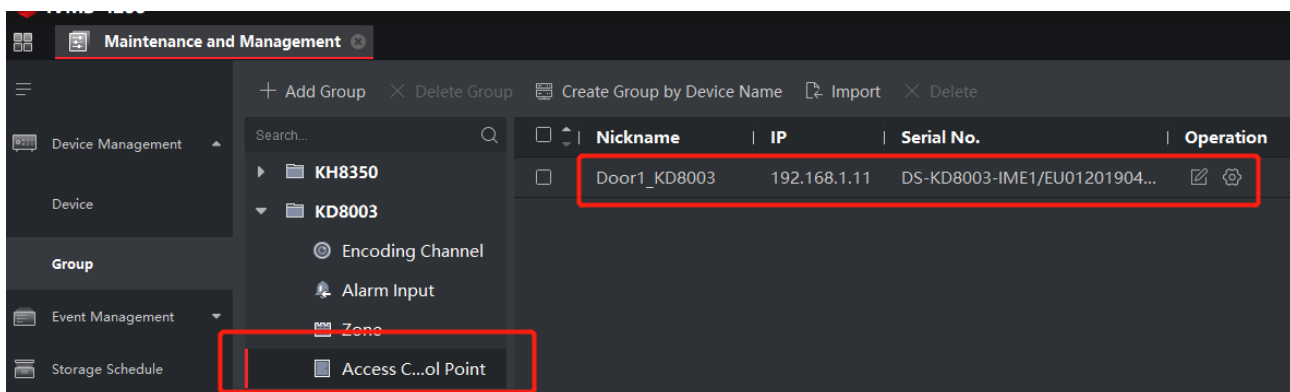

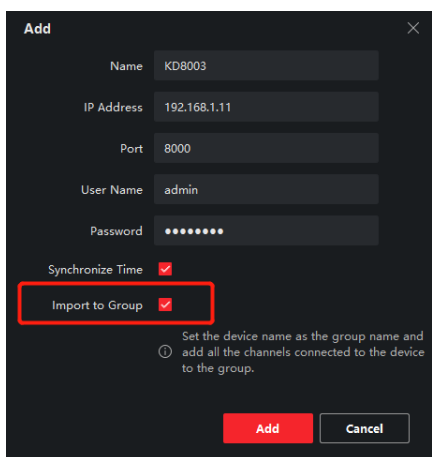

Preparation

Upgrade DS-KD8003-IME1 to 190604

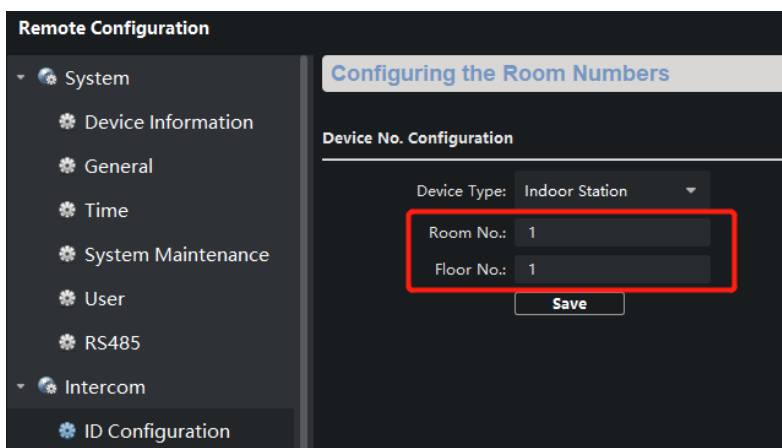

Upgrade DS-KD-DIS to 190520

Steps

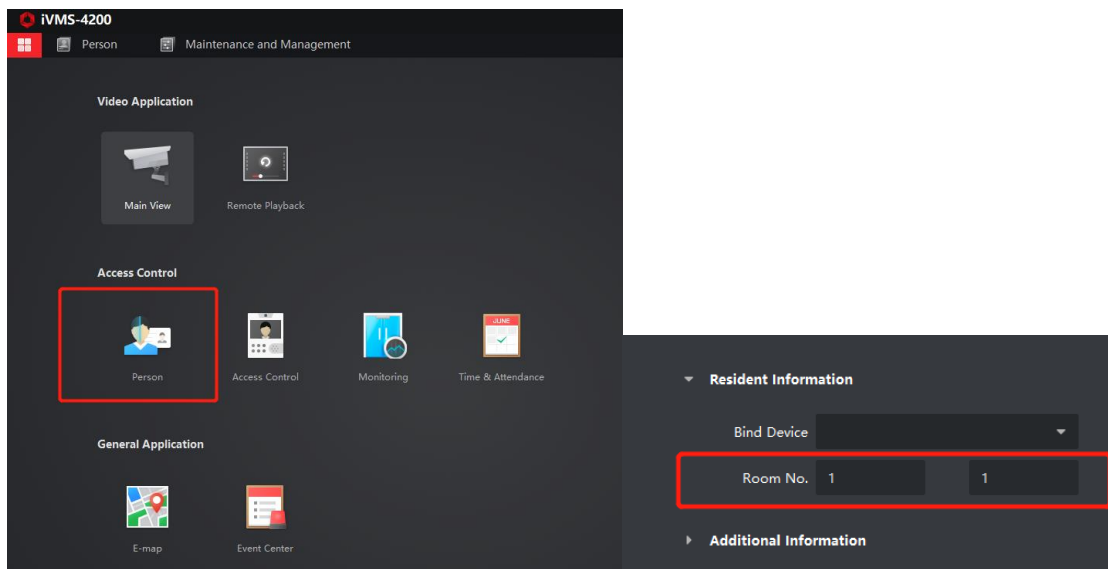

1. Add device and create group

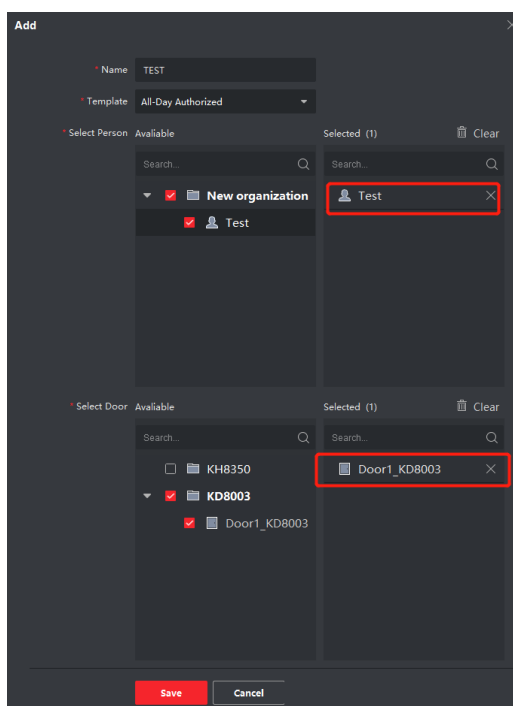

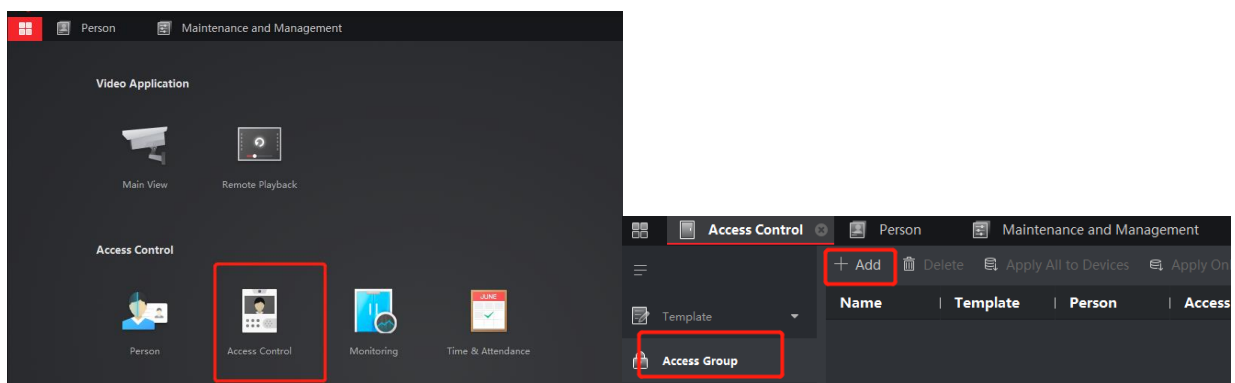

2. Check room number of indoor station

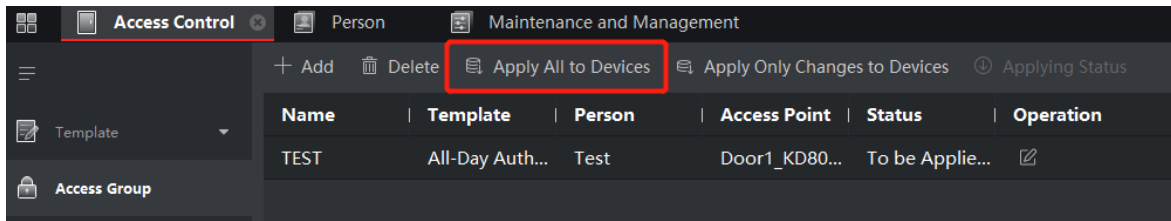

3. Add person, enter room number in <Resident Information>. One room number can be linked to multiple persons.

4. Go to <Access Controls>, add Access Group to link person with door.

5. Apply to device

6. On display module, we can see "Importing".
