Chapter 1 Introduction

1.1 Overview

The iVMS-4200 AC Client Software is a versatile security management software for the access control devices and video intercom devices added in the software. It provides multiple functionalities, including person management, access control, time & attendance, etc., for the connected devices to meet the needs of monitoring task.

1.2 Product Version

Product Name	Date
iVMS-4200 V1.3.0	2020-5

1.3 Related Component Versions

Related Component	Version	Date	Latest Version or not
Player	V7.3.8.47	2020-2-28	No
Network SDK	V6.1.4.15	2020-3-5	Yes
ISUP SDK	V2.2.1.1	2020-4-10	Yes

Chapter 2 What's New

2.1 Added

2.1.1 Event Center

1. On Real-time event page, supports displaying thermal picture and optical picture.
2. On Event Search page, added columns including Temperature, Abnormal Temperature and Wear Mask. Supports displaying thermal picture and optical picture. Supports exporting thermal picture and optical picture.
3. Added access event types including Skin-Surface Temperature Measured, QR Code, Abnormal Temperature and Wear Mask.

2.1.2 Monitoring

1. In Monitoring Module, added columns including Skin-Surface Temperature, Abnormal Temperature and Wear Mask.
2. Added popping up Abnormal Temperature window. When abnormal skin-surface temperature is detected, a window pops up in the client.
3. Supports displaying optical mode and thermal mode of the captured picture.

2.1.3 Time & Attendance

On Attendance Record page, added displaying two columns including Temperature and Abnormal Temperature.

2.2 Updated

2.2.1 Monitoring

Supports picture self-adaptive according to the window size.

Chapter 3 Resolved Issues

This chapter describes the known issues in history version that have been resolved in the current version.

Issue	Description
The Gate Opens for High Skin-Surface Temperature	On the remote configuration page of turnstile, after setting the gate remaining closed for high skin-surface temperature, the gate opens in actual situations. The issue has been solved in this version.
No RS-485 Parameter for Turnstile	In Access Control module, solved the problem that setting RS-485 parameter is not available for turnstile.
Failed to Configure Lane Controller	Solved the problem that configuring lane controller failed when some turnstiles do not support configuring speed of opening/closing barrier gate, gate open direction, etc.
