JURISDICTION BEFORE USING THIS PRODUCT IN ORDER TO ENSURE THAT YOUR USE CONFORMS

THE APPLICABLE LAW. HIKVISION SHALL NOT BE LIABLE IN THE EVENT THAT THIS PRODUCT IS

USED WITH ILLEGITIMATE PURPOSES.

IN THE EVENT OF ANY CONFLICTS BETWEEN THIS MANUAL AND THE APPLICABLE LAW, THE

LATER PREVAILS.

Contents

Chapter 1   Introduction

1.1   Overview

The iVMS-4200 VS Client Software is a versatile security management software for the encoding devices added to the software.

1.2   Product Version

Product Name	Date
iVMS-4200 VS V1.0.0	2019-07

1.3   Related Component Versions

Related Component	Version	Date	Latest Version or Not
Player	V7.3.7.38	2019-06-18	Yes
EHome SDK	V 2.1.1.1	2019-06-18	Yes
Network SDK	V 6.1.0.20	2019-07-05	Yes

Chapter 2   New Features

2.1   Main View & Remote Playback

1. Supports switching video stream type and setting Adaptive UDP as camera's protocol type for better performance of live view and playback when the bandwidth is low.
2. For NVR which is added to the client by device's user name (except admin), if Double Verification is enabled on this NVR, when playing back videos on the client, downloading or backing up video files, you will be required to enter the user name and password created for double verification.
3. Added two fisheye expansion modes: half sphere and AR half sphere. Supports simultaneous fisheye expansion of multiple devices.
4. Optimized interfaces of live view and playback of fisheye camera, and made operations easier. Compared with the former versions, you can start fisheye expansion in a quick manner; live view & playback window will embed on the client page.

2.2   General

1. Provides two skins for customer to change: dark series and bright series.
2. Supports downloading configuration files in the database to a customized path regularly. So that you can import the downloaded files to other client for a quick configuration.
3. Provides convenient upgrade modes of device firmware. Upgrade mode varies according to different device type. We provide auto-upgrade and upgrade prompts, or you can select multiple devices to upgrade in a batch.
4. Supports enabling transmission encryption using TLS (Transport Layer Security) protocol for security purpose when adding devices. You can set the verify certificate required or not when enabling transmission encryption using TLS (Transport Layer Security) protocol.
5. Supports changing password for login. If you forget your password, you can change it after entering the answers to the predefined security questions.
6. Supports 33 languages by multi-language package, including:
   Arabic, Bulgarian, Croatian, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Italian, Japanese, Korean, Lithuanian, Norwegian, Polish, Portuguese, Portuguese (Brazil), Romanian, Russian, Serbian, Simplified Chinese, Slovak, Slovenian, Spanish, Swedish, Thai, Traditional Chinese, Turkish, Ukrainian, Vietnamese.
   Note: Supports plug-in for Arabic, whose character sorting is from right to the left.

See Far, Go Further
